

## Crystal Synergy Cream Removed The Need For Surgery

I was in an accident last year. I fell into the tracks of a dozer I was driving. Someone came to talk to me and I stood up to talk to them and possibly bumped the dozer into gear. It threw me off balance and I fell right into the rolling dozer tracks.

Every bone was broken from my ribs down. I had multiple surgeries pinning me back together. The pain was immeasurable. The most uncontrolled pain was to my foot. The surgeon said he only fix was severing the nerves to my foot. I would no longer have much control to my foot and no feeling. I was to keep a watch on my foot for cuts that I would not have felt happen. If infected I could lose my foot. I was terrified to have this done but I couldn't stand the pain. I was given a jar of Crystal Synergy the week before my surgery. Morphine didn't help it but Crystal Synergy took the edge off the pain so I could at least tolerate it. It was enough to make me stop the surgery. I continued to use it. At first I had to use it often. As time went on I needed it less. The nerves did heal themselves and surgery was never needed. In my opinion this cream saved my foot and me being crippled. I still use it for all the other pain I have from injury. It is fantastic. It works. And the same as with my foot pain, the more I use it the less I seem to need it. Great product. Thank you very much.
